

YADESH HARIHAR SENTHILKUMAR

Tempe, Arizona | +1(669)-301-5716 | ysenthi2@asu.edu | www.linkedin.com/in/yadeshharihar-s

OBJECTIVE: Master's student in Information Technology at Arizona State University with experience in Python, Java, TypeScript, React, REST APIs, AWS, Docker, Kubernetes, and database systems. Seeking a Software Developer Internship at IBM to contribute to cloud-native, full-stack, and AI-powered software while building scalable, reliable, and user-focused applications.

EDUCATION

IRA A. FULTON SCHOOLS OF ENGINEERING, ARIZONA STATE UNIVERSITY Tempe, AZ
Master of Science in Information Technology Aug 2025 - May 2027 (Expected)
GPA: 3.89 / 4
Relevant Coursework: Data in Cloud Information Technology, Applied Machine Learning, Advanced Database Management Systems, Information Systems Development, Big Data Analytics, Information Systems Security, Data Visualization & Reporting.

R.M.K. ENGINEERING COLLEGE Chennai, India
Bachelor of Engineering in Computer Science and Engineering Aug 2021 - May 2024
GPA: 3.54 / 4

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, SQL
Frontend: React, Next.js, HTML, CSS
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs
Cloud & DevOps: AWS (EC2, S3, IAM, API Gateway, CloudWatch), Docker, Kubernetes, Terraform, Git, GitHub Actions, CI/CD
Databases: PostgreSQL, MongoDB, Supabase
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Agile Development, Debugging
Data & ML: Pandas, NumPy, Matplotlib, Scikit-learn

EXPERIENCE

Software Developer | Senthil Velan Driving School | Tamil Nadu, India
Jan 2025 - July 2025

Technologies: Next.js, TypeScript, PostgreSQL, Supabase, AWS S3, Vercel

- Designed and developed an end-to-end web application to digitize operations for a driving school serving 40+ customers per month.
- Built full-stack features for customer management, appointment scheduling, licensing, renewals, payments, and vehicle-related service workflows.
- Designed a PostgreSQL database to manage customer records, payments, appointments, and service data.
- Implemented role-based access control and multi-factor authentication and integrated AWS S3 for secure document storage.
- Deployed the application on Vercel and debugged and iterated on features based on operational requirements.

Web Developer Intern | Zidio Development Pvt. Ltd. | India
Sept 2024 - Nov 2024

- Developed responsive web applications using React, JavaScript, HTML, and CSS.
- Built and integrated REST APIs, worked with SQL databases, and debugged application issues.
- Collaborated with developers using Git and Agile workflows to deliver application features.

PROJECTS

AWS AI Agent IAM Security Scanner | Python • AWS IAM • Boto3 • Click • Jinja2 • GitHub Actions

- Developing a Python-based security scanner to audit IAM roles used by AI agents and AI/ML workloads, including Amazon Bedrock Agents, SageMaker pipelines, Lambda-based AI tools, and MCP servers.
- Implementing automated checks for privilege-escalation risks, wildcard permissions, insecure trust policies, stale IAM roles, and missing security controls.
- Building risk-scoring and CLI/HTML reporting functionality while integrating AWS IAM APIs through Boto3 with CI/CD validation.

Arrhythmia Classification using ECG Spectral Images | Python • Machine Learning

- Developed a deep-learning model for arrhythmia classification using ECG spectral images and performed data preprocessing, feature extraction, and model evaluation.

Emotion Analysis in Tweets | Python • NLP • Scikit-learn

- Developed an NLP pipeline using text preprocessing, feature extraction, and machine-learning techniques to classify emotions from textual data.
